# EVENING BULLETIN

3:30 EDITION

The Bulletin prints all the bargain news any woman needs to read

Perseverance is an advertising necessity. Persevering Honolulu advertisers learn that Bulletin space is an advertising necessity in order to get returns that justify their advertising expenditures.

ESTABLISHED 1882. NO. 4514.

8 PAGES.—HONOLULU, TERRITORY OF HAWAII, TUESDAY, JANUARY 11, 1910.—8 PAGES.

PRICE 5 CENTS.

## WILLIS T. POPE IS NAMED BY GOVERNOR QUINN'S BOOM FOR MAYOR STARTS

### Four Stand Together In Orient

PARIS, Jan. 11.—It is reported here that France will act in accord with Great Britain, Russia and Japan on the proposal of Secretary Knox to neutralize the Manchurian railway.

Shortly after the announcement of Secretary Knox's proposal, it was stated that Russia would favor the American plan and France would stand with its ally. No official declaration of the position of Great Britain has yet been made.

### Army Millions Pass In House

WASHINGTON, D. C., Jan. 11.—The House of Representatives today passed the army appropriation bill, carrying a total of \$98,800,000. The bill has caused less discussion and has gone through with less delay than for many years.

### Mrs. Cleveland

WASHINGTON, D. C., Jan. 11.—United States Senator Root today introduced a bill granting a pension of five thousand dollars a year to Mrs. Grover Cleveland, widow of the late ex-President.

### RAWLINS CASE BEFORE COURT

#### Attorney Says Bride Is Held By Family

Argument was begun in Judge Robinson's court this afternoon on the petition for a writ of habeas corpus that was secured yesterday by David O. Conger, who was married to Ada T. Rawlins on January 1. Conger was represented by Attorney J. Lightfoot, and the Rawlins family by Robert Breckons and A. G. M. Robertson.

The petition for the writ of habeas corpus declares as follows:

"That the cause or pretense of such imprisonment and restraint of the said Thomas W. Rawlins is the claim of the said Thomas W. Rawlins that the said Ada V. Conger resides with her parents of her own free will and accord, and without restraint of any nature whatever, and at her own request, and of her own volition, is absolutely false and without any foundation in fact.

"That during the week last past the said Ada V. Conger, then Ada F. Conger by registered mail and by ordinary mail, special delivery, certain letters, and the said registered letter returned to affiant; that for almost a year last past affiant has been in the habit of corresponding with said Ada F. Conger, then Ada F. Rawlins, and receiving prompt replies to his letters, and affiant believes, and on such belief alleges the fact to be, that said Ada F. Conger would not have refused to receive and answer the said letters, had she been at liberty to do so.

"That heretofore, to wit, on the 8th day of January, 1910, affiant, believing that it was impossible for him to communicate with his said wife by means of the mails, wrote to his said wife a letter and caused the same to be conveyed to his wife by a servant of the said Thomas W.

### Quinn Would Be Mayor of City

#### Supervisor Ready To Battle for Nomination At Next Convention

James C. Quinn, member of the City and County Board of Supervisors, chairman of the road board, and a faithful lieutenant and worker in the Republican vineyard, would add fresh and greater laurels to his wreath.

"Jim" Quinn would become Mayor of the City and County of Honolulu and while the genial solon is not exactly standing on the downtown street corners and making public announcements to this effect by the aid of a megaphone or an automobile horn, it is nevertheless understood that Quinn is out for Joseph J. Fern's job.

### SUGAR ADVANCES IN N. Y. MARKET

#### Centrifugals Go Up After Sharp Rise In Europeans

Sugar sold in New York today at 4.10.

A cablegram containing this information was received by the Henry Waterhouse Trust Co. this morning and shows that the New York market could not long stand the pressure of the advancing price of European beet sugar.

For weeks and almost months the price of beets in Europe has been so far above that of centrifugals in New York that shipments of Cuban sugars to the European market have been freely predicted but thus far have not been realized. The quotation of 12s. 12d. created the largest disparity thus far recorded. Should the planters' quotation advance to that now quoted the disparity would still be over thirteen dollars a ton.

Dr. Cook may be suffering from hallucinations, but not from the kind that would prevent him from getting under cover when something was about to drop.—Springfield Union.

"Richard Le Gallienne has been sued for a \$27 grocery bill," says the Cleveland Leader. Watch out for a poem on "The bill collector with the serpent's hiss."—Washington Herald.

### FOR SALE

#### UPPER NUUANU VALLEY

Eight acres of fine residence property situated on

#### JUDD AND LILIHUA STREETS

For Particulars Apply to Real Estate Department,

Hawaiian Trust Co., Ltd.

### HOLT IS COMMITTED TO CIRCUIT COURT

#### Pleads Not Guilty In Police Court And Shows Line Of Defense

James L. Holt appeared before Judge Andrade at the police court this morning, and was charged with the embezzlement of the sum of \$727. Holt was represented by A. G. M. Robertson and Judge Humphries, and pleaded not guilty. Acting County Attorney Milverton conducted the prosecution and called for his first witness Henry Hapai.

Hapai testified to the fact that at times receipts were signed in blank by the Tax Assessor and then filled in by clerks who received the tax money as it was paid into the office. Witnesses could not remember who the clerks were who were receiving money during the time Holt was assessor.

### SALVAGE FROM ALEXANDER BLACK

#### Sails and Gear From Wrecked Bark Secured

There will be a limited amount of salvage secured from the wrecked British bark Alexander Black, which is rapidly going to pieces on the reefs not far from Pala Mill on Maui.

Some of the sails as well as some gear are said to have been successfully salvaged by a local concern which dispatched a representative to the scene of disaster immediately upon the receipt of the report at Honolulu.

It is known that the Alexander Black possessed a new suit of sails. These needful articles to the successful propulsion of the ship are a prize worth striving for.

It will be remembered that the British vessel was abandoned by her officers and crew immediately following her piling upon the Maui reef.

The little inter-island steamer James McKee, owned and operated by the Miller salvage company, repaired to the Alexander Black soon after her piling.

Whether other valuable material will be removed from the wreck will much depend upon the condition of the weather.

### DETECTIVE BUREAU

#### Local Association Now Corresponding With New York

The regular monthly meeting of the Board of Directors of the local Y. M. C. A. was held last evening at 8 o'clock. The chair was occupied by R. H. Trent, the president of the Association.

Thirty-seven new members were voted in. From the membership secretary's report it was shown that the membership of the Honolulu Y. M. C. A. to Dec. 31, 1909 was 617 and that the total enrollment in the educational classes to date was 192. When Judge Lindsay's commercial law lectures commence on Tuesday next, it is expected that these classes will exceed the 200 mark.

The Association has written to the Army and Navy department of the international committee of the Y. M. C. A. with headquarters in New York, asking them to send a man to Honolulu to study the Army and Navy work here, with a view to making recommendations for a Y. M. C. A. building for the enlisted men in and around Honolulu.

This matter will be taken up as soon as possible, and it is more than probable that it will be more than probable.

### Names Pope As Superintendent

#### Governor Frear Selects College Of Hawaii Man For Place

Willis T. Pope is to be the next Superintendent of Public Instruction, succeeding to the place vacated by Winfred Babbitt when he resigned on the first day of the new year to accept a place with the Hawaiian Planters' Association.

Governor Frear sent Pope's name to the Republican Territorial Central Committee this morning, and a meeting was called at 2 o'clock to act upon the appointment of the Governor.

### COX IS AFTER SHERIFF'S JOB

#### Waialua Supervisor Will Make a Hot Fight

Andrew Cox, City and County Supervisor representing the district of Waialua, who has been in office ever since the present municipal government has been in existence, has signified his intentions of making strenuous endeavor for landing a higher office at the gift of the people.

Cox has for some months past nursed a very healthy aspiration towards holding down the big revolving chair in the Sheriff's office.

The Supervisor has come forward and announced to a number of close political friends that he has determined to make a hot fight for the office of Sheriff for the City and County of Honolulu. He wants Jarrett's job and proposed to land it if his record as a true and stalwart Republican carries any weight with the rank and file of the followers of the Grand Old Party.

Cox has already laid his wires for a lively boom in his district. He has been devoting considerable time and attention to his political fences there. In fact it is said of the well-known Supervisor that if he should throw away his chicanery or trickery he would be landing the nomination for Sheriff in landing the nomination for Sheriff.

The Waialua Supervisor is said to be developing surprising strength when it comes to bringing his delegates into camp.

With Cox in the field, and should Jarrett again go forward as the choice of the Democrats, he will in Cox find a rival worthy of his steel.

### PARIS UNABLE TO PARTICIPATE

E. H. Paris, chairman of the Committee on Island Princesses for the coming Floral Parade, has been obliged to relinquish his office because of business arrangements which compel him to soon depart for the mainland. Mr. Paris will be away from Honolulu during the parade.

Harold Billingham, director of the Floral Parade, has been extremely fortunate in securing Miss Rose Davidson to succeed Mr. Paris as chairman of this very important committee.

### BUTTERNUT BREAD

IS A GOOD THING, NOT A BAD

### Palm Cafe

Hotel, Near Union.

### Beets and Sugar Go Higher

#### SAN FRANCISCO, Jan. 11.—Sugar: 96 degrees test, 4.11c. Previous quotation, 4.02c. Beets: 88 analysis, 13s. 21-4d. Parit: 4.80c. Previous quotation, 13s. 11-2d.

### Harriman Lines To Dissolve

WASHINGTON, D. C., Jan. 11.—Dissolution of the great Harriman system of railways was the subject of a conference held today between the President and leading railway officials. It is believed that the organization of the system as at present existing will not stand the legal test, and it is now the plan to secure a dissolution of the Harriman lines without litigation.

### Germany Has Been Warned

#### (Special Bulletin Cable.) BERLIN, Jan. 11.—The German government has been informed that the United States will regard the adoption of the potash law by the Reichstag as a discrimination against America.

### GOES TO PORTUGAL (Special Bulletin Cable.) MADRID, Jan. 11.—The Spanish Minister to America has been transferred to Lisbon, Portugal.

### OBSERVATORY SITE STILL IN DOUBT

#### Committee Will Hold An Emergency Meeting This Afternoon

The observatory committee is in a quandary as to how to proceed in the matter of selecting a site suitable for the erection of the new building in which the instruments of the College of Hawaii will be housed to view Halley's comet.

Morton Campbell, Superintendent of Public Works, does not seem disposed to hand over to the observatory committee the town side of the Waialae reservoir site, but wishes that body to take the Waialae end.

The Seawall lots, which it is contemplated buying, would provide for a 15-foot right of way, and is evidently suitable in every way. The Superintendent of Public Works now proposes to give the observatory committee a part of the reservoir site, which would shut out the observatory from a proper approach.

As the observatory committee is handling the public's money, they deem it advisable to discuss the matter thoroughly before taking active steps. They will hold an emergency meeting this afternoon to see whether some other site cannot be secured.

Prof. Gilmore of the College of Hawaii thinks that the Waialae end of the reservoir will be too confined and

### Getting in Line for Ship Subsidy

#### WASHINGTON, D. C., Jan. 11.—Every member of the House of Representatives will have to make a flat-footed declaration on the administration ship subsidy bill, if Congressmen Dwight, the party whip in charge of the bill, has his way.

Dwight today served notice on the clerks of the House that they shall not pair Republicans in their vote on the ship subsidy bill without consent. A very careful canvass is being made to guarantee the success of the ship subsidy.

### As A State

WASHINGTON, D. C., Jan. 11.—A bill was introduced in the House today admitting the Territory of New Mexico to Statehood as a separate State. It is understood that the separation of Arizona and New Mexico in their claims for Statehood has the approval of the President.

A committee of two has been appointed to wait on Governor Frear with an endorsement for A. G. M. Robertson for the Second Federal Judge and Judge De Bolt for the vacancy on the Supreme Court Bench. These endorsements are by the Republican Territorial Executive Committee.
